DGUV Test Certificate

Name and address of the holder of the certificate (customer): **FUMEX AB**
Verkstadsvägen 2
93161 Skellefteå
SWEDEN

Product designation: **mobile welding fume separation equipment**

Type: **CMF 10**
CMF 20
CMF 30

Testing based on: **DIN EN ISO 15012-1 (08/2013)**
DIN EN ISO 15012-4 (11/2016)

Test report: **Nr. 201821547/1140 dated 2020-08-12, IFA, Sankt Augustin**

Further details: The types mentioned before meet the requirements of the standards and comply with welding fume separation class "W3".
The devices are appropriate to be used for suction and separation of fume generated by welding, cutting and allied processes of non-ferrous metal, unalloyed and alloyed steel.
Capture of welding fume and separation of gas emissions were not within the scope of this test.
The devices are classified as approved by the German Social Accident Insurance if they are used in combination with one or more capture devices whose air volume flow rates should correspond to the airflow of the separation equipment.
Therefore in Germany exhaust air of the devices may be recirculated into workplace atmosphere according to the German technical rule TRGS 528.

The type tested complies with the test basis specified above. The holder of the certificate is entitled to affix the DGUV Test mark shown overleaf to the products complying with the type tested, including the specification given under the heading further details.

The present certificate including the right to affix the DGUV Test mark is valid until: **2025-08-17**

Further provisions concerning the validity, the extension of the validity and other conditions are laid down in the Rules of Procedure for Testing and Certification.

Dr. rer. nat. Peter Paszkiewicz
